

PROVIDER ALERT

BLOOD GLUCOSE MONITORS AND CONTINUOUS GLUCOMETER SUPPLIES EFFECTIVE DATES OF SERVICE ON OR AFTER APRIL 15, 2024

The MedStar Family Choice (MFC) Pharmacy and Therapeutics Committee made **the decision to change the plan benefit for coverage of home blood glucose monitors and continuous glucometer supplies (CGM) effective for dates of service on or after April 15, 2024**. These products will no longer be covered under the medical benefit but **will** be covered as part of the pharmacy benefit.

The codes affected by this change include: **A4239, A4252, A4253, A4256, A4258, A4259, A9276, A9277, A9278, E0607, E2100, E2101, E2102 and E2103**.

MedStar Family Choice will continue to cover any patients who are presently getting glucose monitoring supplies through the Medical/Durable Medical Equipment benefit with dates of service through April 14, 2024. Beginning April 15, 2024, patients will need to obtain their glucose monitoring supplies through the pharmacy benefit.

What this means is that the **patients will need a new prescription sent to the pharmacy of their choice**. Patients will have options to have their supplies delivered by CVS mail order pharmacy, by MedStar home delivery (designated zip codes only), or by picking up at their local pharmacy.
