

Monkeypox Update to MDH's Medicaid Bureau

July 22, 2022

The Maryland Department of Health (MDH) is closely monitoring the current Monkeypox outbreak and providing updates to partners and constituents as information becomes available. Find U.S. Monkeypox case counts by state on the CDC website.

Please share these new and updated resources throughout your network.

- MDH developed a monkeypox webpage: health.maryland.gov/monkeypox. This page includes regularly updated [monkeypox FAQs](#) as well as English and Spanish factsheets and resources for clinicians. We strongly encourage all providers to review these materials regularly and share the resources widely.
- Scan the **QR code** for MDH information and resources.

Cut and paste the above image(s) into your organization's communications, including newsletters, email, and social media posts. The QR code links directly to the MDH Human Monkeypox information page.

The Maryland Department of Health (MDH) is dedicated to protecting and improving the health and safety of all Marylanders through disease prevention, access to care, quality management and community engagement.
